Uncompromised Quality!

A robust cold water high pressure cleaner with a one-piece rotomold frame, integrated accessory storage, and built-in reel with 15m high pressure hose.

Pump working pressure of 2030psi with a maximum permissible pressure of 2400psi at 11 litre/min. Ideal for construction companies, car yards, workshops and the rental industry.

What does total stop mean?

When the trigger is released, the machine will switch off, saving power. When you pull the trigger again, the motor will turn back on and you can begin cleaning again.

10 or 15 amp versions of this machine available
