

KH5020D Diesel Pressure Washer

- The KH5020D diesel pressure washer is a heavy duty, industrial unit popular with contractors, builders and the hire industry.
- This diesel pressure washer operates at 5000 psi with a flow of 20 lpm unit and has an electric start which helps to give it a long trouble free life.
- A practical, Australian designed and built unit diesel water blaster, it has a HAWK pump that features ceramic pistons and stainless steel valves, a thermal dump valve.
- New zinc plated rust resistant roll frame.
- Large pneumatic wheels for easy movement.
