

## VH 3 Flow Dust Extractor

- This industrial fine dust vacuum cleaner is the solution the market has been waiting for.
- It handles fine dust with ease, has an anti-clogging filter system, easy waste disposal and an operator friendly nature.
- The 3 Flow Maxi Bag Fine Dust Vac features automatic and continual filter cleaning during operation.
- Working automatically and cyclically 2 motors provide suction while the other motor idles and is cleaned.
- This innovative cyclone system prevents down time and expenses from clogged filters and burnt out motors!
- Instead of a standard tank the machine comes equipped with a 20m long maxibag system that can be sectioned off and thrown away as required, without disrupting operations and without releasing waste materials into the air.
