

TECHNICAL SPECIFICATIONS

With the press of a button, the **iClean mini™** instantly converts tap water into a powerful, naturally-occurring oxidizer safe for use around people – yet tough on dirt, germs, and odors.

- Ideal for home, office, or any commercial or industrial environment
- Cleans and sanitizes without toxins, residues, or fumes
- Protects people with allergies or sensitivities from the harsh effects of chemicals
- Fully-integrated, easy-to-use design
- No mixing, no pouring, no salt additives or other consumables required
- No separate charging apparatus or costly accessories needed
