

IPC PW-H28/1308

With up to four hours of autonomy, a wheel system designed to move on any terrain and a durable and reliable structure, these are just some of the features that make the PW-H28 **professional hot water high-pressure washer** ideal for small, medium and very difficult cleaning works.

With the PW-H28 you can easily remove dirt and grease as well as clean **floors, surfaces and vehicles**. A professional machine designed to the smallest detail for this type of operation.

Key Features

- Immediate Total Stop - ITS
- Ignition Boiler Delay - IBD
- IPC Temperature Stabiliser - ATC
- Intelligent Automatic Switch Off - IASF
- Micro Leakage Control - MLC
- Dry Running Protection - DRP
- Nozzle Clogged Control - NCC
- Flooding Prevention System - FPS
