

AERO Safety wet & dry vacuums

– for workshop and light industrial use

AERO SAFETY SERIES

Bluetooth with automatic detection

The bluetooth remote works both as a convenient on/off controller saving time, as well as a universal auto start/stop function for attached power tools - thanks to the build-in sensors and smart algorithms.

Onboard H-class LongLifeFilter

Built to perform for extended lengths of time, all AERO H-class machines are fitted with a special LongLifeFilter constructed with a durable PTFE membrane. The filter is easy to clean and maintain, ensuring maximum efficiency in dust extraction with every use.

Extended tool functionality

The power tool extension outlet has been upgraded to support Ø32 and Ø21 hose settings, making it possible to attach and control a wide range of power tools, for greater flexibility of use of your AERO vac.

Compact and lightweight vacuums with consistent performance

The AERO Light Industrial series takes lightweight and compact vacuum cleaners to another level, so you can enjoy premium performance, enhanced usability, and improved safety. The AERO Safety H range comes equipped with H-Class filtering, designed to capture and contain hazardous dust – wet or dry.

The AERO 26 series is a mid-sized vacuum featuring exceptional suction performance, a 25-litre tank, Push&Clean filter cleaning system, outstanding suction performance – all available with M/H-class certification.
