and Technical Specifications.

On those smaller areas and big jobs, Stingray's high speeds are what you need for fast-set, full gloss, wet-look ...and dust-free floors.

'Stingray'

Designed specially for Larger areas, 'Stingray' delivers when speed and power is needed for difficult jobs.

Smooth, quiet operation, flexible pad system and easy operation makes creating and maintaining that 'wet look' shine with these workhorses easier and faster than you thought possible.

Contour-following system for an even finish

Consistent, maximum floor contact is achieved with the flexible pad holder. The pad constantly follows the contours of the floor surface, ensuring a highly polished, dust-free floor every time.

Repairs micro scratches too.

The Complete Dust Control System for dust-free floors

Polivac's 'Total Dust Control' (TDC) Vacuum System ensures a fast set and high-efficiency dust removal in one pass.

Maximum Operator comfort = maximum productivity

Lightweight and well-balanced with an adjustable handle, ergonomic hand grips and 'safety button' actioning triggers, Stingray's ergonomics deliver safe and comfortable control at all times. Lower profile and longer reach. Operators cover more square metres faster ...with no need to backtrack.

Charger Port

Easy Access Charger Port located on the machine frame.

Simply designed to be easy to service

The design of the machine makes for easy access to the belt, drive pulley and vac. inlet. No high service labour costs. Longer life. Reduces likelihood of costly repairs.

Powder-coated base easy to clean and highly durable

Stingray look good on any site. Heavy-duty, non-marking bumper and skirt protects walls, fittings and the machine too!

Blackline bumper and skirt protects walls and furniture

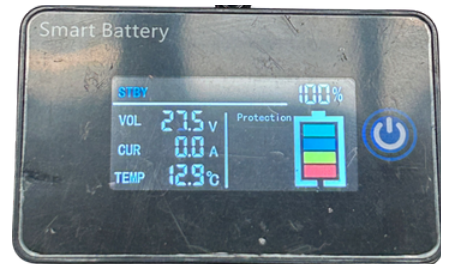

Full wraparound bumper ensures greatly reduced risk of damage to fittings or the machine.

Powerful Lithium Battery

Light weight 24V 78AH Lithium Battery. Latest MBS technology controls discharge level of the Battery. automatic cut off once Battery reaches minimum safety discharge level. Up to 3000 discharge Cycles

Smart Battery Indicator

Smart Battery indicator is located on the battery. accurately shows battery capacity and Voltage

Intelligent Charger

24V 20A intelligent charger is capable of charging fully discharged battery in 3-4 hours. Automatic cut off system on the charger gives peace of mind for the user even when charger connected with the battery for an extended time period
