Key Features

Versatile Cleaning

All-in-One Solution

Integrates vacuuming, scrubbing, sweeping, and dust mopping in a single solution for comprehensive floor care.

Floor Type Recognition

Identifies flooring types and automatically adjusts brush height to protect flooring materials.

AI-Powered Perception

Smart Obstacle Avoidance

Recognizes obstacle types and makes advanced behavior decisions according to the types and features of obstacles.

Spot Cleaning Mode*

Proactively detects and cleans waste using RGB camera and AI algorithms, bringing up to 400% efficiency improvement.

*Available via OTA upgrade.

Agile Maneuverability

Strong Passability

Able to pass through aisles as narrow as 600mm and as low as 650mm to clean under desks.

Zero-distance Edge Cleaning

Able to clean along the edges at zero distance, leaving the edges spot-free.

Advanced Safety

Flashing Light

Ensures safety and effective performance in low-light conditions by alerting nearby pedestrians.

Warning Flag (Optional)

Enhances the robot's visibility, ensuring it can still be seen even when partially blocked by cargo or other objects.

Effortless Maintenance

Smart Handle

Automatic mode shift (Auto/Manual) via handle position detection, and effortless control with power assistance.

Docking Stations

Optional workstation for auto charging and water management, and an optional mobile water tank for on-demand water supply.
