Meet the **i-mop XXL**®

Sometimes bigger can be better. The i-team proudly presents the new i-mop XXL: a re-engineered powerhouse that literally runs circles around the competition. With a larger scrub deck & new power management system, large obstructed areas become possibilities. This innovation allows the user to clean up to 2300 m^2 in just an hour, flipping the script on how a larger auto scrubber should look, feel & handle. Start saving tremendous time when operating the machine, and cut down time on logistics on your larger workspaces. You can approximately save 20% of your time compared to a conventional walk-behind auto scrubber with a size of 50 to 75cm. Empower yourself with the i-mop XXL, where powerful innovation meets flexible design.

Full size scrubber dryer with the flexibility of a flat mop

PowerVac
CLEANING EQUIPMENT & SERVICE

scrub & dry

- 62 cm cleaning path
- 2 powerful brush motors
  Nylon protective bumper
- Cleans right up to the edge

extreme mobility

- Low profile deck to clean underneath objects
- 360° of flexibility

PowerVac
CLEANING EQUIPMENT & SERVICE

click on / click off

- Easy to fill, clean & empty above a sink
- Use different tanks for different chemicals

Friendly **user-experience**

With the i-mop XXL, users operate a machine that not only looks & feels right, but also twists and turns like no other scrubber dryer on the market. It's friendly exterior & usability makes it the perfect addition to your workforce.

New power management

We have redesigned the power management system and packed in as much power as physically possible into our new grey i-power 14 batteries. They are the exact same shape & size as our i-mop XL batteries. You can use them across all of our products, simply plug and play.

PowerVac

Re-engineered for width

In order to achieve the balance between challenging larger areas with the same flexibility and speed as the i-mop XL. We have enlarged the scrub-deck to give the machine a cleaning path of 62 cm and added more water capacity.

Lightweight & storage

The i-mop XXL has been designed in such a way that it takes up very little floor space when it's not being used. Store it in a closet within reach. Take it with you up and down steps and stairs. Pop off the batteries and lift the water tank from the machine to load it into the trunk of a car.
In short, a fully mobile machine.

Total cost of ownership

No new training needed. The i-mop XXL combines all of the elements of the previous build, and upgrades you to work in bigger unobstructed areas. By expanding the range of your machines, the way you operate is in your own hands, without the unnecessary extra overhead.

Technical specifications

Application	Indoor, hard surfaces only
Theoretical performance	Up to 2300 m^2 per hour
Practical performance	1200 - 1800 m^2 per hour
Brush speed	350 RPM
Brush pressure	32 kg
Operation width	62 cm
Size machine (l x w x h)	43 x 69 x 124 cm
Weight without batteries & water	21 kg
Clean water tank	5 L
Recovery clean tank	5 L (max 8 L)
Material	PP, Aluminum alloy
Power source	i-power 9, 14 or 20 batteries
Battery spec	25.2 V, 14 Ah
Charger	110-240V, 50/60Hz
Runtime	50-60 min with i-power 9 60-70 min with i-power 14 130 min with i-power 20

Charge time	**i-charge 2** 5-6 hours for i-power 9 7-8 hours for i-power 14 7-8 hours for i-power 20	**i-charge 9** 5-6 hours for i-power 9 7-8 hours for i-power 14 7-8 hours for i-power 20
